

Sr. KG Clay Moulding Competition

Creativity was at its best as our Senior KG students participated in an exciting Clay Moulding Competition held on 27th February 2025. The competition was designed to enhance their fine motor skills, imagination, and artistic expression. The little artists eagerly shaped their colourful clay into various objects and imaginative creations. Their tiny hands worked with great enthusiasm, bringing their ideas to life with vibrant colours and unique designs. The competition not only encouraged their creativity but also helped in improving their hand-eye coordination and concentration. It was heartwarming to see their joy and pride as they presented their masterpieces. The judges had a tough time selecting the winners, as each child displayed remarkable talent and effort.
